

A photograph of a young man with short brown hair and light skin, looking directly at the camera. He is shirtless and appears to be in a swimming pool, with his arms resting on the edge. The water is clear blue, and the background is a sandy beach.

Now Men Can Have **Younger, More Healthy, Skin.**

Men's skin is different than women's. The key difference is that Men's Skin is more oily and has larger pores, while women's skin needs the added moisture and proper type of limited essential oils for their skin. Therefore many Skin Care products made for women are way too oily for men. Long term this can block the skin from extra unnecessary oils, and can even create acute acne.

Fortunately the Nutra-Lift® Line of Skin Care are not made with any added oils, but high concentrations of plant derived moisturizers & conditioners that work well for both men's & women's skin. It is our philosophy, evolved from extensive research, that most oils (common to many female skin care lines) are damaging as well to most women's skin.

We have strived to create the balance key to proper skin health. Nutra-Lift® Skin Care products are good for all skin types, including Men, and all ages. The products contain natural vitamin and herbal ingredients all skin needs ... Whether you need protection from the sun while on the golf course ... or need a healthy youthful look for your business needs, Nutra-Lift® provides the Skin Care that Men need ... want to reduce those acne breakouts ... reduce lines & wrinkles ... have a silky smooth shave ... or want thicker more beautiful hair ... the Nutra-Lift® personal care products are the easy inexpensive way to look your very best.
